**W**HAT'S BLACK AND WHITE AND "PINK" ALL OVER? WHY, Porsche Lynn and Sade, of course. Porn stars come in all different colors, as you can see from these two tantalizing temptresses. Both are riding high on the wave of their latest pulsing performances. Succulent Sade's recently starred in the blue-biz blockbuster *The Black Chill*, while eye-popping Porsche appeared in the scintillating *St. X-Where*.

# The Candie That Melts In Your Mouth...

**T**ONIGHT, PORN SUPERSTAR CANDIE EVENS HAD A PRETTY decent time at the '50s dance, but now that she's back at her date's apartment, the real fun begins. All night long, Candie couldn't wait to pull up her dress and show what she's made of... and neither could we!

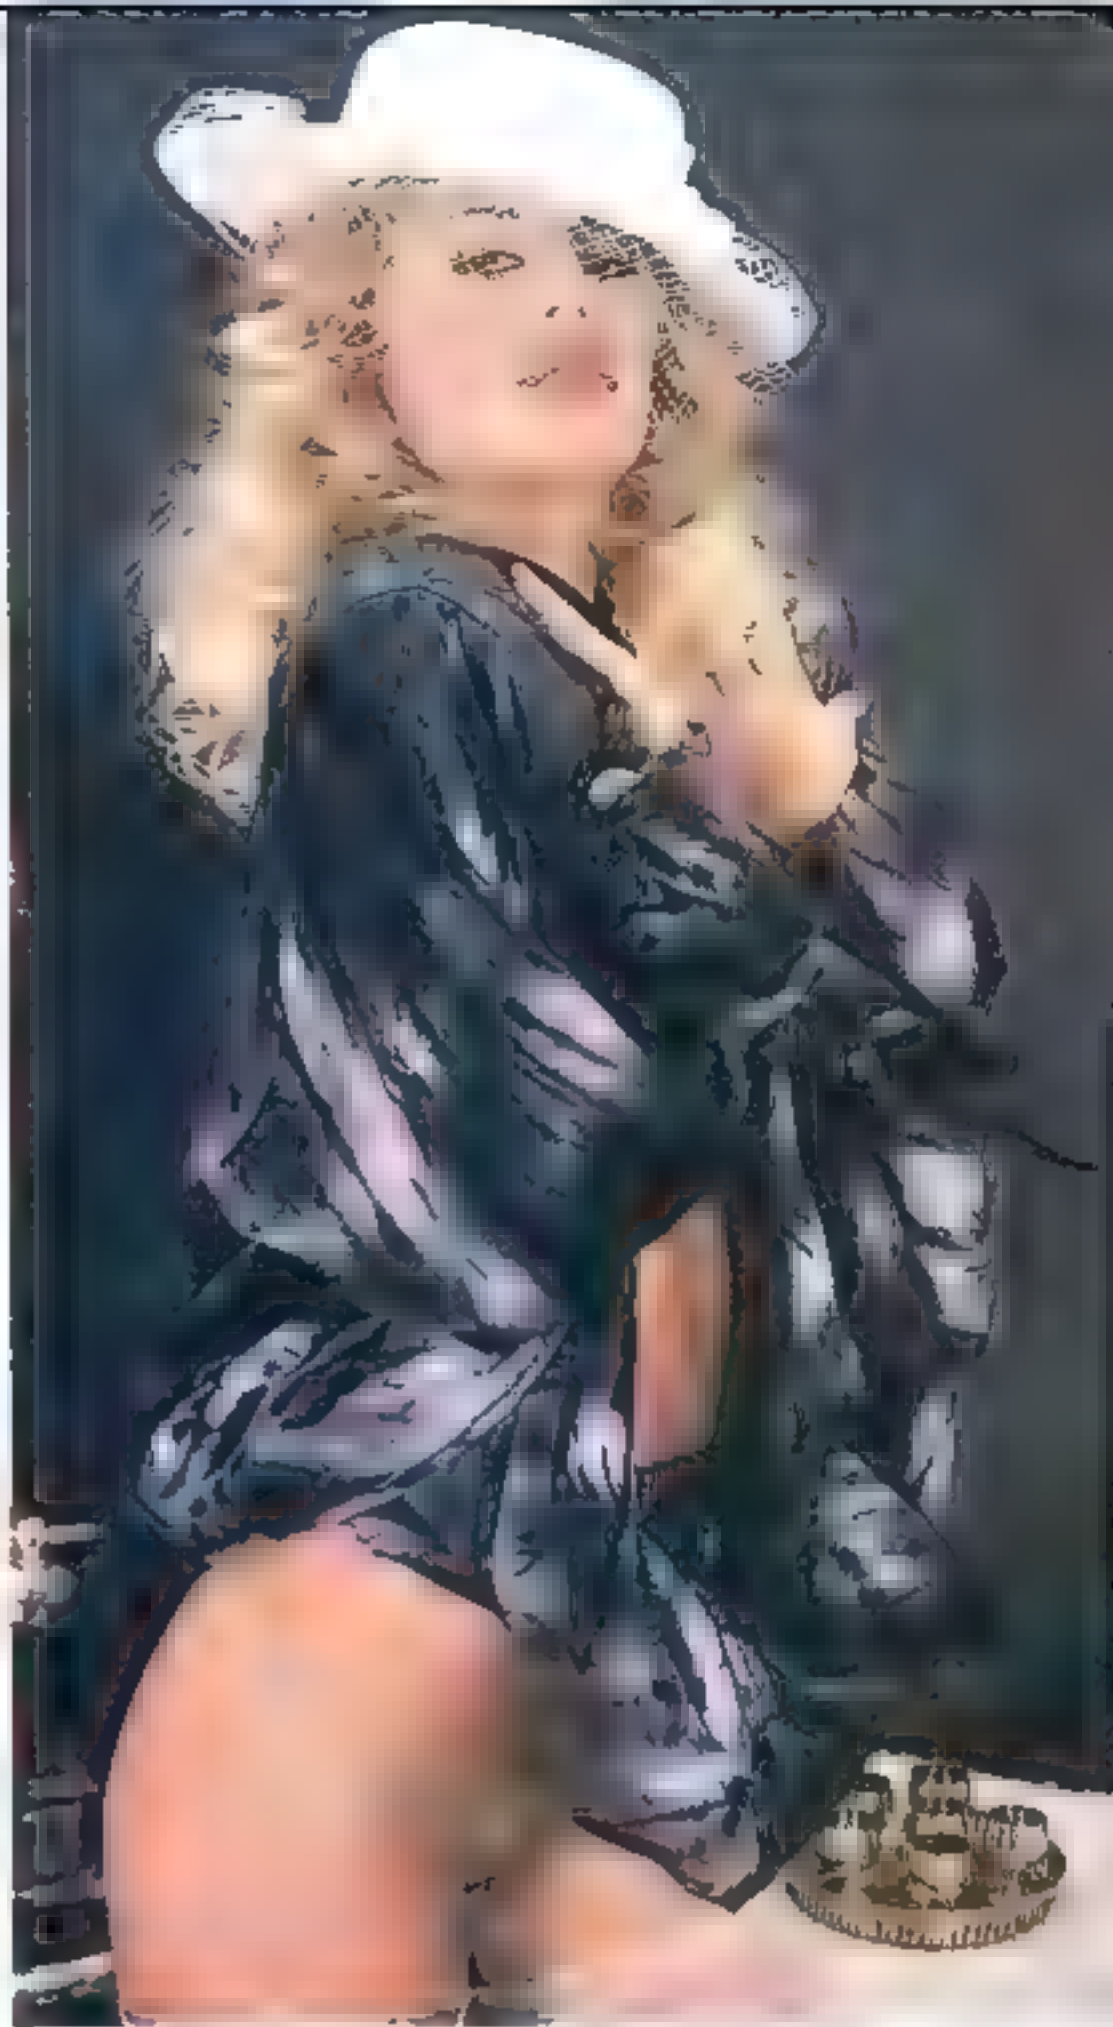

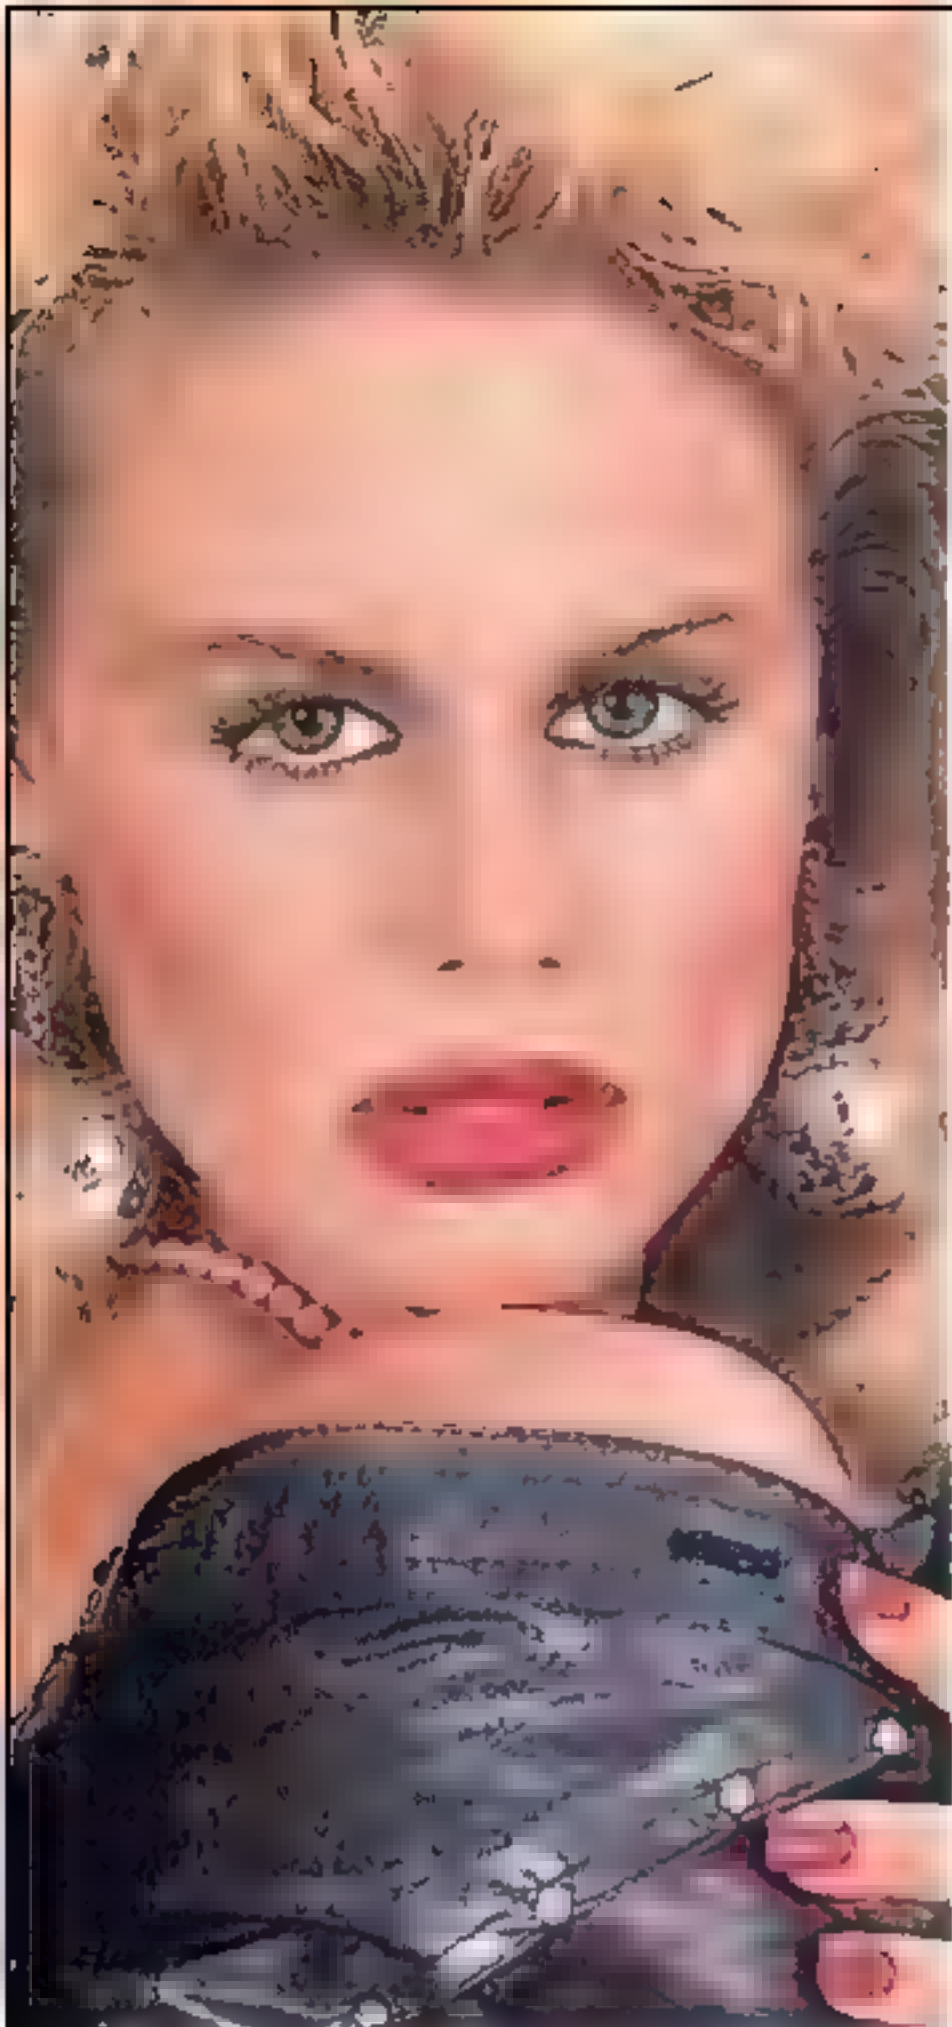

Curvaceous Candie's full, fleshy mounds have been teasing Richie all night. Having pressed herself firmly against his muscular chest through endless slow dances, Candie now measures her prowess by the thickening bulge in Richie's jeans. As cuddly Candie eagerly releases his rigid rod, Richie in turn gets right to the bottom of things.

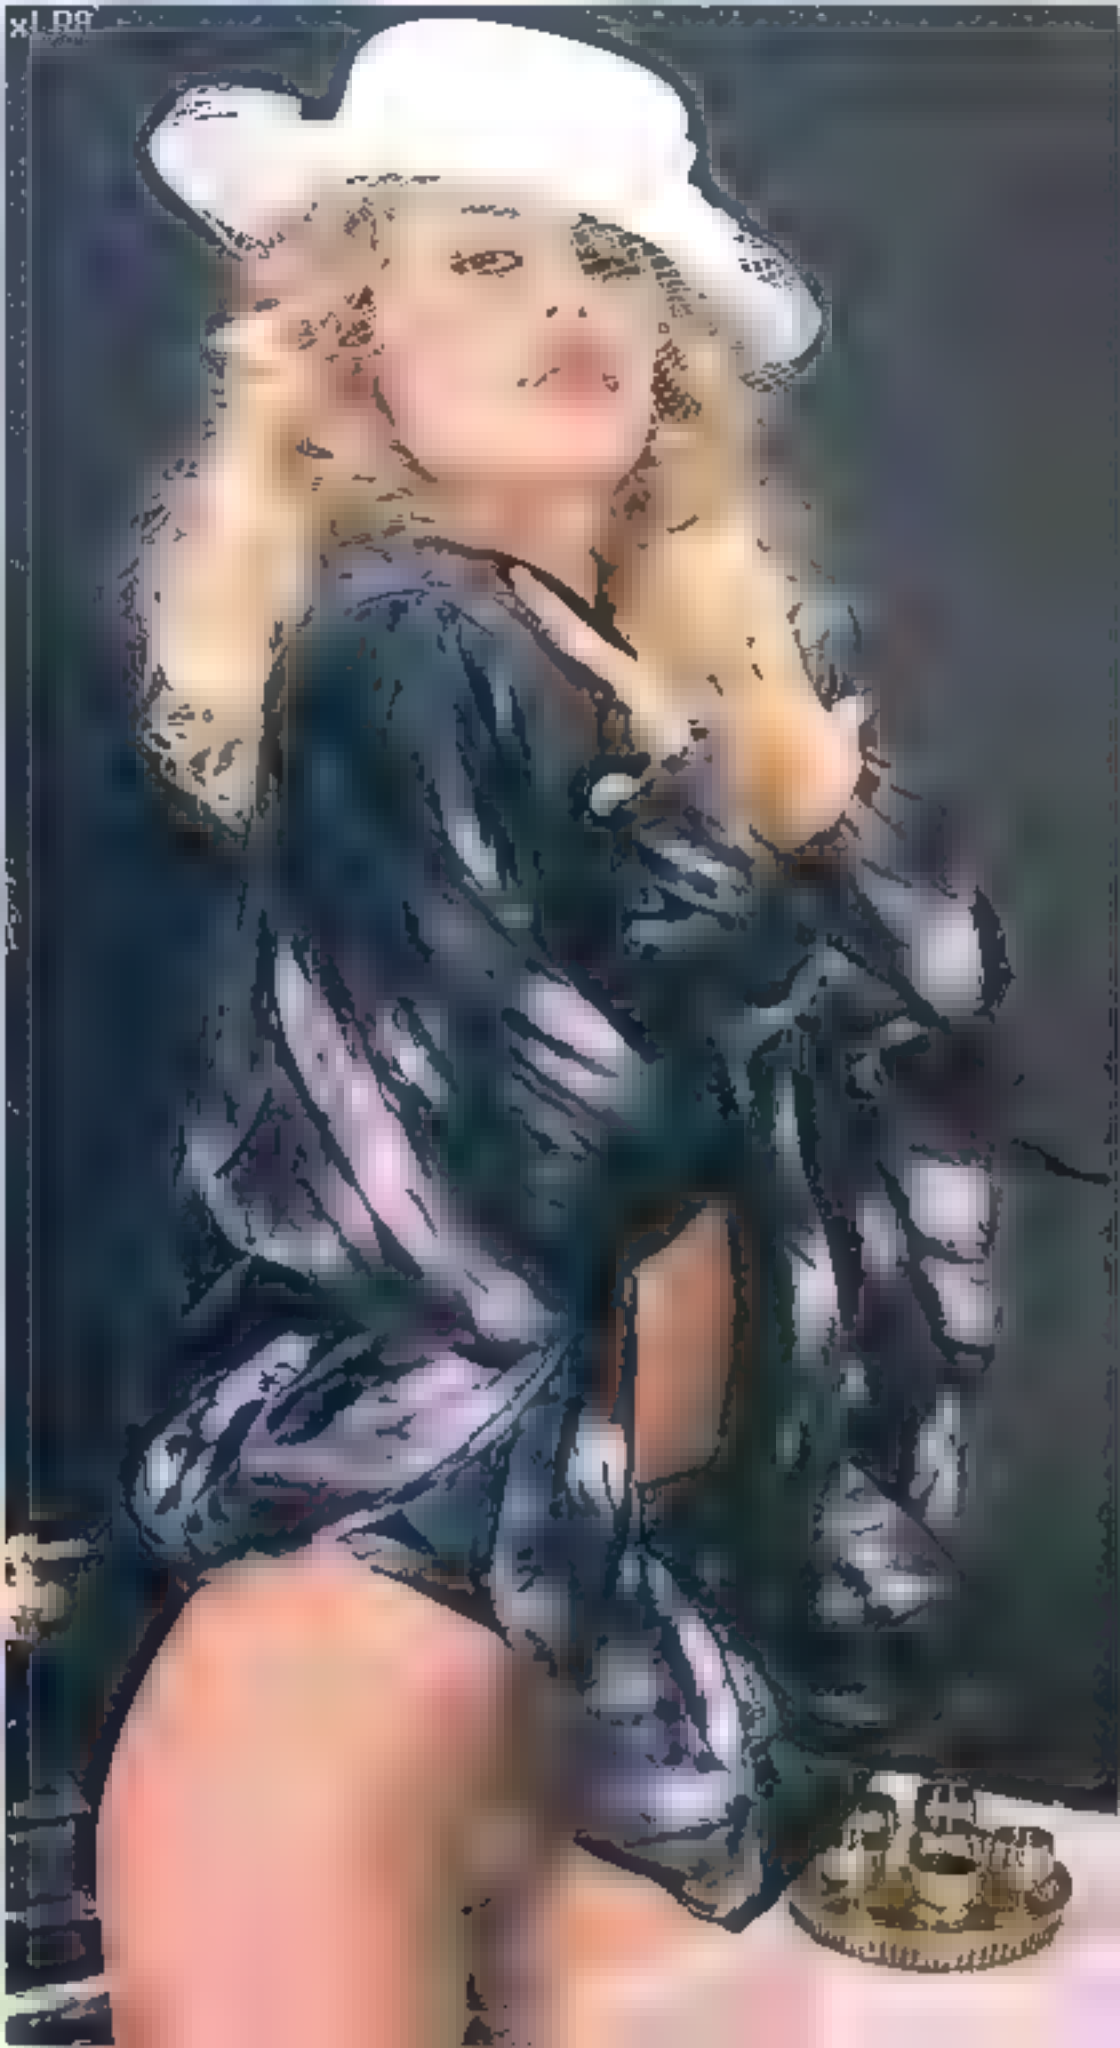

# JAMIE SUMMERS

**J**AMIE SUMMERS IS, WITHOUT A DOUBT, A PRECIOUS JEWEL waiting to be discovered. This blonde beauty has all the elegance of a shimmering diamond, but, unlike even the most expensive stone, she is as flawless as humanly possible. Since recently bursting on the blue-biz screen, she's put together a string of successful adult flicks, and it's this same undying determination that's helped her get ahead in the world. "When I see something I want, I'll do just about anything to get it," she says.

# CHRISTY

**C**HRI<sup>S</sup>TY'S HER NAME AND SURFING'S HER GAME. THIS wholesome honey is as natural as a ten-foot breaker. She is not pretentious or phony in any way. She's just herself—maybe that's what keeps students of her flourishing surfing school rolling in. After all, wouldn't you rather learn the dynamics of this difficult sport from a soft, blue-eyed beach bunny than some hulking, white-haired dude?

A mere 20 years old, cuddly Christy is no stranger to riding the big ones. This Venice Beach vixen began surfing when she was 12 and immediately realized that she wanted to make it her profession. 'It's such a free feeling when I'm riding the crest of a huge wave,' exclaims Christy. 'I have so many students enrolled in my classes that have to work seven days a week, but I don't mind because I genuinely love what I do.'

# TERRI

**T**HEY SAY THAT CLOTHES MAKE THE WOMAN, but as you can plainly see, that's not always the case. While Terri's got a keen eye for fashion, she doesn't need anything to enhance her natural beauty. No, titillating Terri is splendid all by herself.
